Website: https://prit1912.github.io/Portfolio

Objective:

To obtain a responsible and challenging React JS Developer's position as a Fresher where I can use my skill sets, learn new skills and technology.

Education:

Qualification	School/College	Year of Passing	Result
BE (Pursuing)	GEC Gandhinagar	2022	8.28 CPI
12th	AB School	2018	89%
10th	AB School	2016	93.66%

Skills:

- React JS
- JavaScript
- HTML5
- CSS3
- Bootstrap
- jQuery
- NodeJS(Basic)
- Java
- MySQL

Projects:

- Recipe App

This is a web app developed using React JS in which you can search for any food recipe and similar results will be displayed. Food recipe API was used for this project.

- Google Keep Clone

This is a simple web app developed using React JS which has a functionality of storing content with its title and it is similar to Google Keep.

- Tweet Quotes

This is completely vanilla JavaScript Project where random quotes are displayed each time you click on "New Quote" button and when you click on "Tweet" button Twitter will open automatically and that quote will be displayed on your Tweet Area.
